

GOVT. FORCES ARE GETTING CONTROL OF RED REVOLT

PLANS TO EXTEND UPRISING TO BERLIN ARE DISCOVERED BY POLICE

(By United Press)
Berlin, March 26—Plans to include Berlin within the scope of the communist uprising were discovered here today. The police reported that they had obtained evidence of a plot to dynamite buildings, newspaper plants and monuments. They were unable to locate the main hiding place of the explosives and issued warning to the public to beware of the attempt.

One thousand unemployed men sought to seize several factories on the outskirts but were quickly dispersed by police.

The Berlin communist newspaper has been ordered suppressed.

Reports reaching here early today indicated government forces were rapidly controlling the situation in the insurrection districts.

Government Forced Revolution
Charges that the German government deliberately forced the present revolution, were made by the communists today.

Through their spokesman, they declared the Ebert regime had two main objects in view—crushing the workers preparatory to throwing the entire reparations burden upon them, and demonstrating to the entente that retention of arms is necessary to overcome the proletariat outbursts.

Government officials charge that the communists sought to institute a revolution at the time when authorities were occupied with the Poles and reparation question hoping it would spread through Germany and enable them to overthrow the present administration. It was predicted that the uprising would be crushed by tomorrow.

American I. W. W. Lead Communists
Mersburg, Germany, March 26—Former members of the American I. W. W. were reported today to be leading the communist demonstration in the vicinity of Leuna.

The factories in that city were said to be still in the hands of the workers guarded by a "red" army of three thousand.

The government of Saxony has announced that Bellerfeld is in the hands of communists and that factories there have been occupied.

Workmen Hope to Keep Factories
Leuna, Germany, March 26—German workmen who have seized factories in connection with the present communist uprising hope to retain possession and establish a communistic state.

This was indicated today by Max Kempling, Berlin communist, who said they were preparing to disassociate themselves "from all principles of humanity if necessary to accomplish their aim."

"We have been too sensitive and tender in the last two years," he said. "We are going to disassociate ourselves from all principles of humanity and employ force—guns, etc.—just like the bourgeoisie; it is our only hope."

"The workers are naturally pacifists," he said, "but we will use force to accomplish our purpose." He said the present uprising is traceable to efforts of the entente and German capitalists to make slaves of workers.

"The cause of the attack was the provocation of factory chiefs who called in safety police to enforce impossible conditions upon their employees," Kempling said.

"We cannot live; we cannot die. We know if reparations were paid we would be condemned to virtual slavery."

"Hoped God Would Strike Him Dead," Died Two Hours After

(By United Press)

Welsh, W. Va., March 26—Two hours after he had expressed a wish that his life be taken if he had made a statement attributed to him by witnesses in a suit over sale of cattle, Mark Dillon dropped dead.

"I hope God will strike me dead if I made that statement," witnesses said Dillon declared after he left the court room. Friends said he was apparently in good health.

Over the heads of the crowd of satisfied, well fed and fairly contented people, General William Booth, the founder of the Salvation Army, saw in the fringe of the crowd an ignorant, heart hungry, vicious and half-naked, half-fed homeless mass of persons, irreligious and un-Godly, who were without the Gospel and outside of the church. He dedicated his life and the life of his family to their service, result, The Salvation Army.

THREE MEN ARRESTED FOR UNION STATION ROBBERY AT CHICAGO

(United Press)

Chicago, March 26—Three men today were under arrest charged with the union station mail robbery several weeks ago in which close to \$700,000 in bonds were stolen.

Police said \$34,000 in stolen bonds were rescued when the men were seized.

Those under arrest are Wm. Kreitzer, bond salesman; Isadore Goldberg, electrical contractor, and O. A. Jetter, office manager of the Lawrence M. Stein Company.

THREE MEN ARE HELD FOR SUPERIOR CRIME

(By United Press)

Superior, Wis., March 26—Police today held three men in connection with the mysterious murder of Mrs. Marie Davies in a candy shop here Monday night.

They were looking for two former husbands of the woman. Those held were: Louis Pantillo, who claims he was engaged to marry her; R. L. Cassino, proprietor of the candy shop where her body was found; Joseph Hoshik, frequenter of the shop.

Mrs. Josephine Deal, of Mount Pleasant, Iowa, mother of the girl, was expected here today to claim the body.

Police learned that Mrs. Davies was divorced from Earl Bogardus at Silver Bow, Montana in 1912, and was divorced from Hyacinth Schuler in Chicago in December, 1918.

The coroner's jury viewed the body late yesterday but an inquest was postponed until next Thursday.

"Trust Your Wife"
Katherine MacDonald's latest starring vehicle, will be the piece de resistance at the New Park theatre tomorrow, Sunday. This production was directed by J. A. Barry, being a screen adaptation of Harry S. Sheldon's play, "Conscience." David Winter, wealthy Los Angeles clubman who looks like a twin brother of Douglas Fairbanks and who is described as a screen "find," makes his debut in motion pictures in "Trust Your Wife." He will be seen as the American Beauty's leading man, Charles Richman, a favorite of the silent drama has an important role, while other's in the cast are Miriam MacDonald, the star's sister, and Mary Alden.

In "Trust Your Wife" Katherine MacDonald is said to have been given an especially suitable vehicle for her talents and advance reports state that it represents her very best work. She portrays the part of a newlywed, the bride of a young architect who leaves the middle west for New York to put over his big idea on a bluff. Dick and Margot Hastings take up an expensive apartment and put on a bold front so that he may obtain financial backing for his scheme. Dick meets Slater T. Holcomb, a financier and a flatterer of pretty women, and endeavors to interest the millionaire in his plans. Holcomb is at once interested in the beautiful and young Mrs. Hastings and agrees to advance money, but when he learns of their bluff insists that the architect put up a large sum of his own as evidence of good faith. This Dick cannot do, and the arrival of a letter from his bank demanding payment on a note completes his discouragement. Margot arranges a secret meeting with Holcomb on his yacht to persuade him to live up to his agreement. This is just the opportunity he has been awaiting. A dramatic scene takes

FOUR BANDITS SEIZE \$13,500 CASH MAKE GETAWAY

HOLD UP AUTO IN CHICAGO AND ROB PAYMASTER OF BIG CONTRACTOR

(By United Press)

Chicago, March 26—Four bandits seized a pay roll of \$13,500 when they held up an automobile just outside of the busy loop district and made a clean getaway.

James Edgers, paymaster for the D. P. Robertson company, contractors, and two other employees had just reached the warehouse the company is building for the Chicago & Alton railroad, when four men rushed up to the automobile. All had guns drawn.

"Go," whispered the leader as the four men climbed into the car. With a pistol thrust against his ribs the chauffeur drove one mile where the bandits seized the money and forced the occupants of the car out.

The bandits escaped in the payroll automobile.

Bandits Kill Express Messenger

Chicago, March 26—Hjalmar Johnson, messenger for the Brinks Express company, was riddled with bullets and killed by four payroll bandits who seized two packages of money he was delivering on the North Side today.

Johnson entered the office building to deliver the money and the four bandits rushed at him with drawn revolvers.

Johnson resisted, trying to save the money, and was killed. The bandits escaped in an automobile identified as one stolen from State Senator Hull. The amount of the loot is not yet known.

Another Payroll Robbery

Minneapolis, March 26—A lone bandit held up Miss Stella Holm, cashier of the Buzza Publishing company shortly before noon today and escaped with the weekly payroll amounting to \$1,500. Miss Holm was returning from a bank when the bandit threatened her with a gun. Grabbing the money bag the man ran across the street and jumped into an automobile. Scores of spectators saw him escape.

RENEW SEARCH FOR NAVAL BALLOON

WHICH WAS BLOWN OUT TO SEA WITH FIVE MEN ON BOARD TUESDAY

(By United Press)

Pensacola, Fla., March 26—Although little hope was held out for the rescue of the five men flying a naval balloon that disappeared Tuesday night when they were blown out to sea by unexpected winds, search was renewed at daybreak.

Power boats and dirigibles patrolled throughout the night. At dawn a fleet of airplanes and additional power boats joined them.

Private reports reaching here from Panama City, 80 miles east of Pensacola said that two carrier pigeons released from the balloon had been captured there.

place on the yacht, but Margot finds a way to stir the conscience of this designing man. Dick arrives at the pier just as the yacht drives away. A stirring climax takes place when Margot returns home, but all the misunderstandings are happily smoothed out as a result of the conscience she had restored to Holcomb.

The play is said to be the most absorbing in which Miss MacDonald has ever appeared and presents a powerful moral which emphasizes the true value of conscience.

FAMINE IS REAPING HARVEST OF DEATH

(By United Press)

Peking, March 24—Famine, which holds the provinces of Honan, Shensi and Chihli in its sinister grasp, is reaping a dreadful harvest, according to reports received at the headquarters of the International Relief organization in this city. In 22 counties of Honan the average daily death rate was 1,000, while deaths from famine in the six northern counties of the province averaged 300 daily.

Sixteen counties in Shensi covered by relief committees have suffered heavily, it is shown by reports, the most serious phase of the scourge being found, apparently, near Fuping, a small town northeast of Sian-Fu, capital of the province. In the sixteen counties there have been 50,000 deaths from starvation since the beginning of the famine, 20,000 of these deaths occurring in Fuping county. The county ranking next to Fuping in the number of deaths is Ankang, with 8,000.

The others range from 3,000 downward. Bubonic plague recently made its appearance in 20 villages along the border between the provinces of Chihli and Shantung, 108 persons dying from the malady.

In some counties in Honan there was a dangerous condition arising from an outbreak of typhus, 20 cases being reported daily. Medical authorities there, however, have conditions under control.

Funds amounting to 3,250,000 gold taels (normally \$4,500,000) including 1,000,000 taels from the American Red Cross, have been apportioned to all famine districts by the advisory committee of all organizations in the stricken regions. This committee is informed the American committee for the China relief fund, headed by Thos. W. Lamont, is doing its utmost to provide food for 6,000,000 persons, and assertion is made that there are 3,000,000 more destitute, not counting those requiring economic assistance in resuming their normal pursuits.

It is estimated by the advisory committee that 4,000,000 gold taels will be required to carry on the work of feeding the starving people, although this amount might be cut to 1,500,000 taels if corn should arrive from America by the last of April. A campaign for raising famine funds in China, which has been going on for the past month, has netted 140,000 gold taels.

The American Red Cross is feeding 150,000 persons, employing them to work on the roads.

BANK BANDIT SHOT; MONEY RECOVERED

(By United Press)

St. Louis, March 26—A lone bandit, who has been declared identified as a resident of Hawarden, Iowa, entered the Steele bank here yesterday and at the point of a revolver forced Harrison Steele, aged 30, son of the president, into the vault, snatching all the money in sight, about \$500. He ran down an alley.

The bandit had neglected to lock the vault door and Steele followed him. Others joined the chase and the bandit took refuge in an old barn three blocks from the bank.

Shots were exchanged and a charge of birdshot struck the bandit in the eyes, blinding him.

He surrendered and the money was found on him. The bandit will be recovered. He is said to be employed by the Illinois Central Railroad company and to have a brother employed by that road at Meridian, Iowa.

WHY U. S. REFUSED TRADE RELATIONS

(By United Press)

Washington, March 26—Revolutionary activities carried on from Moscow by the soviet authorities were a big factor in this government's refusal of trade relations, it was learned today.

This government has knowledge that soviets would attempt to spread bolshevism in the Western Hemisphere as well as in Europe and Asia. These circumstances are what Secretary Hughes referred to when he said to communists of the soviet government that the United States "would be glad to have convincing evidence of change of policy by the Russian government."

Terrell Suicide Decides Coroner's Jury

(By United Press)

Moorhead, March 26—No motive for murder having been found, the coroner's jury after a second inquest over the body of Virgil Terrell today found that he committed suicide in a fit of temporary insanity by crawling into an airtight stove at his farm home.

Mrs. P. A. Eiesch, of Findlay, Ohio, a sister of the dead man, had demanded a second inquest. She returned here with the body. She testified that the Moorhead undertaker wrote to the undertaker at Findlay telling him not to open the casket because the remains were charred beyond recognition. They became suspicious and upon opening the casket found that the body was only slightly burned.

STILLMAN CORNERS WITNESSES IN HIS DIVORCE CASE

DEFENSE HAVING DIFFICULTY IN GETTING PERSONS TO TESTIFY FOR ITS SIDE

(By United Press)

New York, March 26—James A. Stillman, president of the National City bank, has practically "cornered the witnesses" in his divorce suit against Mrs. Fifi Potter Stillman, it was learned today.

The millionaire banker, through his attorneys, has "lined up" practically all of the friends who might have the remotest knowledge of the case before his wife was aware of it, according to friends on both sides.

"When the defense sought to interrogate possible witnesses, particularly the Stillman servants, it was found most of them already had been pledged to testify for Stillman and were so close-mouthed that it was impossible to learn what evidence they were expected to give," one of these friends who had been a close friend of both Mr. and Mrs. Stillman told the United Press in an exclusive interview.

The informant cited as an example the case of Isabel Armstrong, former nurse of the Stillman children. She was with Mrs. Stillman, in Canada at the time Fred Beauvais was their guide, charged by Stillman as being the father of two year old Guy, the youngest of four children.

The defense sought her on the Pacific coast as a witness only to find that she had already promised to testify for Stillman. It was learned today that the defense was still seeking her. She has disappeared since interviewed by the United Press.

ST. CLOUD WINS ITS GAS CONTROVERSY

Sixth District United States Court Holds Rates Remain at the Contract Figure

NO CONFISCATION BY THE CITY

Maximum Rate to Remain at \$1.35 Per Thousand for Fuel Gas Until December 1, 1935

St. Cloud has gained a victory in its litigation with the St. Cloud Public Service company in its fight over gas rates. The public service company's attempt to raise rates has failed and the \$1.35 maximum remains until December 1, 1935. The court held the city has a valid contract with the Public Service company to provide fuel gas to the inhabitants of St. Cloud at not to exceed \$1.35 per thousand cubic feet.

In view of the existence of this valid contract, Judge Booth of the Sixth District United States court, ruled there is no confiscation on the part of the city, and the company may not plead constitutional protection on the ground that its property is being taken without due process of law, when in fact the rates for which the city is contending were established by a mutual contract which was freely entered into by the city and the company.

The decision is a great victory for St. Cloud, and for the city's able legal advisor and representative, City Attorney R. B. Brower, who singlehandedly fought the case against the attorneys of the utility corporation, J. D. Sullivan of St. Cloud, Pierce Butler of St. Paul, and Cobb, Wheelwright & Benson of St. Paul.

The further moves of the gas company will be watched with interest. Brainerd, which offered Mr. Whitney \$3 a thousand to resume operations in Brainerd, will wonder how he is going to make it pay with a rate of \$1.35 per thousand and such rate to remain in effect until December 1, 1935.

Reviewing the St. Cloud case it looks as though Brainerd could also have held the company to its rates here, for the Brainerd contract was as freely entered into as the St. Cloud one.

"A White Man's Chance"

The supreme lover of the screen, the idol of romance, is here!

That, of course, is J. Warren Kerrigan, if you stop to think a moment. The stars of the screen nearly all have a specialty in their twinkling. Big Jack Kerrigan's is romance and colorful adventure, and he is given plenty of both in "A White Man's Chance," which is shown at the Lyceum theatre today only.

The principal scenes of the story are laid in Mexico where the things that happen to the husky hero are perfectly possible, thrilling though they may seem; also, the land where such a charming love story as is woven around the leads can flourish best. Giving yet more charm to that love story, Mr. Kerrigan plays the part of a Spanish noble.

Not Necessarily Wrong.

Adv.—"Plain cook wants situation. No objection to doing a little plain cooking." Possibly the first "plain" refers to her looks.—Boston Transcript.

A FAST RECORD OF GOOD

RESULTS

No discovery, none expected, is doing more to bring about a complete revolution in the healing arts than CHIROPRACTIC. This work now covers the continent. It is not an experiment, but a great health institution which daily administers to the relief of hundreds of thousands of sick and afflicted men, women and children.

DISEASE

Disease is defined as anything less than perfect health. The names which make up the catalogue of different diseases have little or no value with reference to recovering health, for all disease are merely effects of physical causes, and when those causes are removed the effects will disappear.

CHIROPRACTIC EFFECTIVE

We have successfully overcome the underlying causes of many cases of stomach trouble, bowel, liver and kidney disorders, rheumatism, neuritis, various headaches, affections of nose, throat, lungs, and other organs both acute and chronic type.

EASTER

Easter brings each year a fresh rejoicing. There is not only the happiness appropriate to the religious festival, not only the seasonal gladness that winter is past, that the resurrection of all things is at hand, but each year brings its own peculiar reasons for joy that the time is come.

This year the early spring and the early Easter come together. Winter's troubles are over. Moreover, there is a feeling that the winter of war, with its long dragging out of thaw and freeze and lingering slush, is giving way at last to the revival of the normal interests and activities of a time of peace.

Joy in itself is a healing thing, a source of strength and energy. Those who profit most from the memory of the risen Savior who, rising, lifts all life with him, are those who enter into the spirit of the ancient Easter verse:

"This is the day which the Lord hath made;
 Let us be glad and rejoice therein!"

"Blind Youth"

"Blind Youth," pictured from the famous stage success written by Lou Tellegen and Willard Mack, comes to the Lyceum theatre for Easter Sunday.

"Blind Youth" is a picture which must impress all who see it, not only by the dramatic quality of the plot development, but by the careful attention that is given to every detail which tends to make the portrayal more realistic.

The added attraction are a two reel comedy, The Topics of the Day and Mutt and Jeff cartoon comedy.

Tea for Travelers.

The Chinese, on their new-built railways, have established a service which in its line is beyond anything we know in this country. It is free boiling water. At each important station there is a boiler under a queer looking circular roof which looks like a huge umbrella. The traveler can help himself from one of several taps. Why boiling water? For making tea, of course. The traveler brings his teapot, or at least a cup, along with him; also some tea. He gets his favorite beverage fresh, just as it would be made at home.

What is Dis-ease?

Dis-ease is lack or excess of function in any part of the body. All function is controlled by mental impulses from the brain, therefore the cause of dis-ease must be an interference with the line of communication between the brain and the dis-eased part. It necessarily follows that the only permanent way to do away with the dis-ease is to adjust its cause and thus restore free communication. Chiropractors do this by adjusting the displacement that causes the obstruction. Ninety-five per cent of the obstructions are at the Spine.

Fear Led to Dish Covers

Dishes were not covered at first for
the purpose of keeping the food warm.
They were covered from fear—the fear
of poison. In the Middle ages people
were afraid that poison might be in-
troduced into food between the kitchen
and the table. Hence the cook was
ordered to cover the dishes and the
covers were not removed until the
master of the house sat down to eat.
